

Expand your Business with **CHILDREN'S LONG-TERM SUPPORT SERVICES**

Want to make a difference in the lives of Wisconsin's children with disabilities, while expanding or creating a new line of business? Become a provider in the Children's Long-Term Support (CLTS) Waiver Program.

Use your expertise.

All businesses interested in supporting children with disabilities and their families are encouraged to register. We are looking for tradesmen, including carpenters, plumbers, product providers, and others who help create accessible homes and communities through:

- Adaptive aids like specialized clothing, vehicle modifications, and portable ramps
- Communication aids, assistive technology, and interpreter services
- Home modification like ramps, lifts, and bathroom remodels
- Specialized medical and therapeutic supplies

Make a difference.

Help children and their families live their best life. As a CLTS provider, you will work with local counties and the Wisconsin Department of Health Services (DHS) to provide services and supports to children with long-term disabilities or complex medical needs. The supports and services you provide will help children fully access their homes and communities.

Enter a growing market.

There is a growing need for more providers. The CLTS Waiver Program is now serving more than 10,000 children—an increase of 60% since 2017. Even more growth is expected as more funding is identified.

Registering is free.

1. Register as a provider if you have not worked as a CLTS provider before. It's **free**!
2. We determine you to be an initially qualified provider, and you work with local counties to become approved to provide your services.
3. You are listed in the **new** searchable, statewide, online provider directory available to the general public at no charge.

Register as a
provider today!
